

Kagga Kamma Nature Reserve

Nestled against natural rock formations in the Cederberg and far away from big city lights lies Kagga Kamma Nature Reserve; a location which connects visitors of today with the soulful heritage and landscape once inhabited by the Khoi and San of the past. Kagga Kamma is unique in that it comprises an untouched Karoo-like wilderness: decorated in bursts of wild flowers, scattered and fascinating rock formations and an intriguing ecosystem of small creatures scarcely seen or found anywhere else.

Guests to the area are touched by the incredible experience bestowed upon them when visiting the Reserve and often find themselves wishing to return to a place so undiscovered and exclusive. Enjoy a number of modern comforts while reconnecting with the earth. At Kagga Kamma space and time are measured by moments and memories formed in the red sand and of fynbos and endless skies.

Oh my gosh!!!! Breath-taking. An absolute bucket-list MUST for anyone. Will definitely go back. From the stunning Cave Suite, to the amazing couple's hot stone massage and the delicious food. Oh, what a magnificent place. Absolute BLISS. You cannot help but feel super relaxed and completely disconnected from everything else that doesn't really matter. Definitely stay more than a day. Make a weekend or a couple of days out of it. The drive there was amazing, but once we reached Kagga Kamma - what an absolutely extraordinary experience. Wow. Wish I could give 10 stars. We went there for our honeymoon and it was romance heaven!
